MASTER OF NONPROFIT ADMINISTRATION AND LEADERSHIP (MNAL) PROGRAM

Nonprofit organizations are distinct from business and government in that they blend private structures with public purposes. Effective managers need an understanding of how nonprofits interact with public and private institutions.

The Master of Nonprofit Administration and Leadership (MNAL) is a two-year degree designed to prepare students with knowledge of core management functions and competencies such as fundraising, financial management, human resource management, philanthropy, proposal writing, program development, program evaluation and applied management.

Nonprofit management, administration, and leadership is a rapidly growing career field in high demand. This degree draws on the strengths of leading scholars and practitioners with expertise in human resources, volunteerism, philanthropy and the political character of nonprofits in civil society.

The MNAL is an interdisciplinary collaboration of the Levin College of Urban Affairs, the College of Business and the School of Social Work as well as other programs at Cleveland State University. This degree provides students with the tools to build management skills and knowledge of nonprofits in order to improve their employment opportunities, advance in their organization, or to make a career change.

CAREER OPPORTUNITIES

The Northeast Ohio region boasts one of the highest concentrations of nonprofit organizations nationally with more than 6,000 nonprofits located in Cuyahoga County. In a 2005 Monthly Labor Review, the Bureau of Labor Statistics indicated that the nonprofit sector was the only source of employment growth in U.S. cities between 1995-2003, growing at a rate of 16% over this period.

Studies by organizations such as the Annie E. Casey Foundation and Bridgespan, a nationally recognized nonprofit policy institute, project that the sector will experience a four-fold increase in the number of senior managers needed over the next two decades.
